SURFACE MICRO-SEALER

and waxing agent

FOR USE IN

- Mobile Homes
- Houses/Siding
- Commercial Buildings
- Cars/Trucks

ABOUT SURFACE MICRO-SEALER:

Surface Micro-Sealer is a cherry-scented, clear-coat micro-sealer and wax. Though formulated for high-pressure application, it may also be applied using low pressure. This product may be applied alone to a surface. This product will promote a shine on the surface as well as assist in drying. A highly concentrated, special blend of active ingredients that rinse easily to leave a uniform, glossy, protective film that is bonded to finishes. Adds luster to home exteriors, vehicles, and decreases drying time due to improved beading of rinse water. **Protects finishes against rust, corrosive salts, and oxidation.** Cationic, non-petroleum base, contains no solvent. Will not leave film on windows. **Super high dilution rate.**

DIRECTIONS:

Add to rinse water and apply at a ratio of up to 600-1 (8oz/150gl). For higher concentrations, may be diluted up to 50-1 (32oz-150gl). Can also be added to wash water or soap mix for a "Wash and Wax" type application. Test on surfaces in an inconspicuous area before applying.

KEEP OUT OF REACH OF CHILDREN

DISTRIBUTED BY:

"For over 30 years Power Line has provided quality engineered and environmentally sound cleaning maintenance programs for companies nationwide."
