CITRUS BASED DE-GREASER

USED BY PROFESSIONALS NATIONWIDE!

INDUSTRIAL STRENGTH

CITROJETTER™

JETTER • CABLE • DRAIN • ADDITIVE & CLEANER

This natural citrus based degreaser is engineered for high pressure water jetters and cable drain cleaners. It emulsifies and dissolves fats, oils, greases, and most drain build-ups. Substantially reduces jetting and cable cleaning time while scouring and deodorizing drain systems.

DIRECTIONS:

PRE-TREAT DRAIN: Add 8 oz. (1 cup) directly to the drain(s) to be cleaned. Can be added to backed-up water, then clean drain.

FOR LARGE JETTERS: Add directly to water tank or fed through antifreeze system during temperature above (+32°) or run separately through chemical feed tank. Does not work as an antifreeze.

USE RATES:

- **HEAVY BUILDUP:** Use 1 gallon to 150 gallons of feed water.
- **MEDIUM BUILDUP:** Use 1 gallon to 300 gallons of feed water.
- **LIGHT BUILDUP:** Use 1 gallon to 500 gallons of feed water.
- **FOR MINI JETTERS:** Add 8oz. (1 cup) to drain before jetting. Can be injected directly into pump through chemical feed line. Feed directly out of container. Adjust dilution to create a light foam at nozzle.
- **CABLE DRAIN CLEANERS:** Add 8oz. (1 cup) to drain then cable.
- **STORAGE AND SHELF LIFE:** 5 year shelf life. If product is exposed to extreme temperatures, shake thoroughly before use.

“For over 30 years Power Line has provided quality engineered and environmentally sound cleaning maintenance programs for companies nationwide.”
