

POWER LINE U.S.A.

PRODUCT DATA SHEET

USED BY PROFESSIONALS NATIONWIDE!

MR-2 Restores, Cleans, Protects and Shines Plastic, Stainless Steel, Chrome and Other Surfaces

MR2™

FOR USE IN

- Commercial Kitchens
- Locker Rooms
- Pool Areas
- Health Clubs
- Restaurants
- Airports
- Super Markets & Convenience Stores
- Hotels & Motels
- Malls & Stores
- Hospitals & Nursing Homes

DIRECTIONS:

Shake well. Test in an inconspicuous area. Remove surface dust with a soft cloth. Apply polish in a back-and-forth motion at right angles to scratches. When worst scratches have been removed, reapply MR2 in a circular motion to entire surface using short strokes and light pressure. Allow to dry to a light haze. Buff with a clean dry cloth to slippery glaze using firm short strokes. This procedure is imperative to achieve the best results. Repeat if necessary.

NOTE:

The type of cloth will make a difference. Use a non-abrasive, absorbent and lint free cloth. To eliminate any change of scratching, use only disposable cloths. Avoid polyester or rayon wipes! If damaged area is large or badly damaged, a power buffer may be used. Use a clean wool or cotton bonnet and operate buffer at a low speed (approx. 1000rpm).

CAUTION:

Buffer application may create airborne crystalline silica and inhalation carcinogen. Avoid getting in eyes. In case of eye contact flush with water for 15 minutes. If swallowed, DO NOT induce vomiting. Contact a physician immediately.

KEEP OUT OF REACH OF CHILDREN

DISTRIBUTED BY:

"For over 30 years Power Line has provided quality engineered and environmentally sound cleaning maintenance programs for companies nationwide."

PROUDLY MANUFACTURED IN

14773 Heritage Crest Way • Riverton, UT 84065
